2. Citations and explanations (Rule 70.7)

The present invention relates to a pair of blue jeans of which the hem length is adjustable, wherein zippers are vertically installed along outer seams from the hem upto the femoral region for adjusting the hem length.

(1) Reference is made to the following document:

D1 : KR 0193746 Y1

D2 : JP 63-175109 U

(2) Novelty and Inventive Step

D1 relates to pants having a slit on each outer seam from hem upto the knee and a zipper for opening and closing the slit. D2 relates to pants having a v-shaped incision on each leg which is closed and opened with a slide fastener.

The subject matter of claim 1 can be easily invented by a person skilled in the art by adjusting the position and the length of a zipper of D1 and D2. Thus, claim 1 is not inventive under PCT Article 33(3).

However, the technical feature of claims 2-6 dependent on claim 1 is not disclosed in D1 and D2, and thus meets the requirement of novelty and an inventive step under PCT Article 33(2)-(3).

(3) Industrial Applicability

There is no reason for denying industrial applicability of the present invention.
